| Koehl, Edward   |             |          |               |            |
|---|-------------|----------|---------------|------------|
| Procedure   | Performed   | Required | Independent   | Compliant  |
| Vascular Diagnosis: Arteriography   | 282         | 0        | No            | -          |
| Vascular Diagnosis: Venography  | 86          | 0        | No            | -          |
| Vascular Diagnosis: Dialysis access evaluations                               | 1           | 0        | No            | -          |
| Vascular Intervention: Venous access (all: tunneled, nontunneled, ports)      | 175         | 0        | No            | -          |
| Vascular Intervention: IVC filter placement, retrieval                        | 28          | 0        | No            | -          |
| Vascular Intervention: Venous ablation (varicose veins)                       | 7           | 0        | No            | -          |
| Vascular Intervention: Dialysis access intervention                           | 27          | 0        | No            | -          |
| Vascular Intervention: TIPS & TIPS evaluation/revision                        | 11          | 0        | No            | -          |
| Vascular Intervention: Angioplasty/stents/covered stents: arterial            | 75          | 0        | No            | -          |
| Vascular Intervention: Angioplasty/stents/covered stents: venous (all)        | 10          | 0        | No            | -          |
| Vascular Intervention: Carotid stenting                                       | 2           | 0        | No            | -          |
| Vascular Intervention: Thrombolytic therapy (all), thrombectomy               | 17          | 0        | No            | -          |
| Vascular Intervention: Aortic endografting (thoracic and/or abdominal)        | 21          | 0        | No            | -          |
| Vascular Intervention: Embo emergent: (trauma, GI, bronchial, etc)            | 21          | 0        | No            | -          |
| Vascular Intervention: Embo elective: (UFE, AVMs, varicocele, etc.)           | 79          | 0        | No            | -          |
| Vascular Intervention: Radioembo (selective internal radiotherapy)            | 7           | 0        | No            | -          |
| Vascular Intervention: Other  | 49          | 0        | No            | -          |
| Nonvascular Intervention: Biopsy  | 6           | 0        | No            | -          |
| Nonvascular Intervention: Abscess drainage & tube checks                      | 84          | 0        | No            | -          |
| Nonvascular Intervention: Paracentesis, thoracentesis                         | 1           | 0        | No            | -          |
| Nonvascular Intervention: Chest tube placement                                | 33          | 0        | No            | -          |
| Nonvascular Intervention: PTC, biliary drainage, biliary stents; tube checks  | 43          | 0        | No            | -          |
| Nonvascular Intervention: Nephrostomy, nephroureterostomy; tube checks        | 71          | 0        | No            | -          |
| Nonvascular Intervention: Gastrostomy, gastrojejunostomy; tube checks         | 90          | 0        | No            | -          |
| Nonvascular Intervention: Cholecystostomy; tube checks                        | 14          | 0        | No            | -          |
| Nonvascular Intervention: Asp., drain, sclerosis (cyst, etc); tube checks     | 6           | 0        | No            | -          |
| Nonvascular Intervention: Tumor ablation (RFA, cryo, ethanol, etc)            | 22          | 0        | No            | -          |
| Nonvascular Intervention: Pain management                                     | 11          | 0        | No            | -          |
| Nonvascular Intervention: Other   | 21          | 0        | No            | -          |
| Clinical & Related Nonprocedur: Outpatient visits, new patient referrals      | 96          | 0        | No            | -          |
| Clinical & Related Nonprocedur: Outpatient visits, postintervention follow-up | 19          | 0        | No            | -          |
